**\*PLEASE NOTE:** We will take the last router & Wifi backup and email you the config file and delete the services from our servers. Please note, if there happen to be disruption of services, it is up to your IT team to reload the backup and restore services with the backup we provided you. **If our assistance is needed, YOU will be billed the current hourly rate. Also, if the port request does proceed and we do not hear back from you. We will assume you did intend of the port without notice and we will immediately remove all services and bill you the current minute usage immediately.**
